years of excellence

Safety
& Compliance Driven

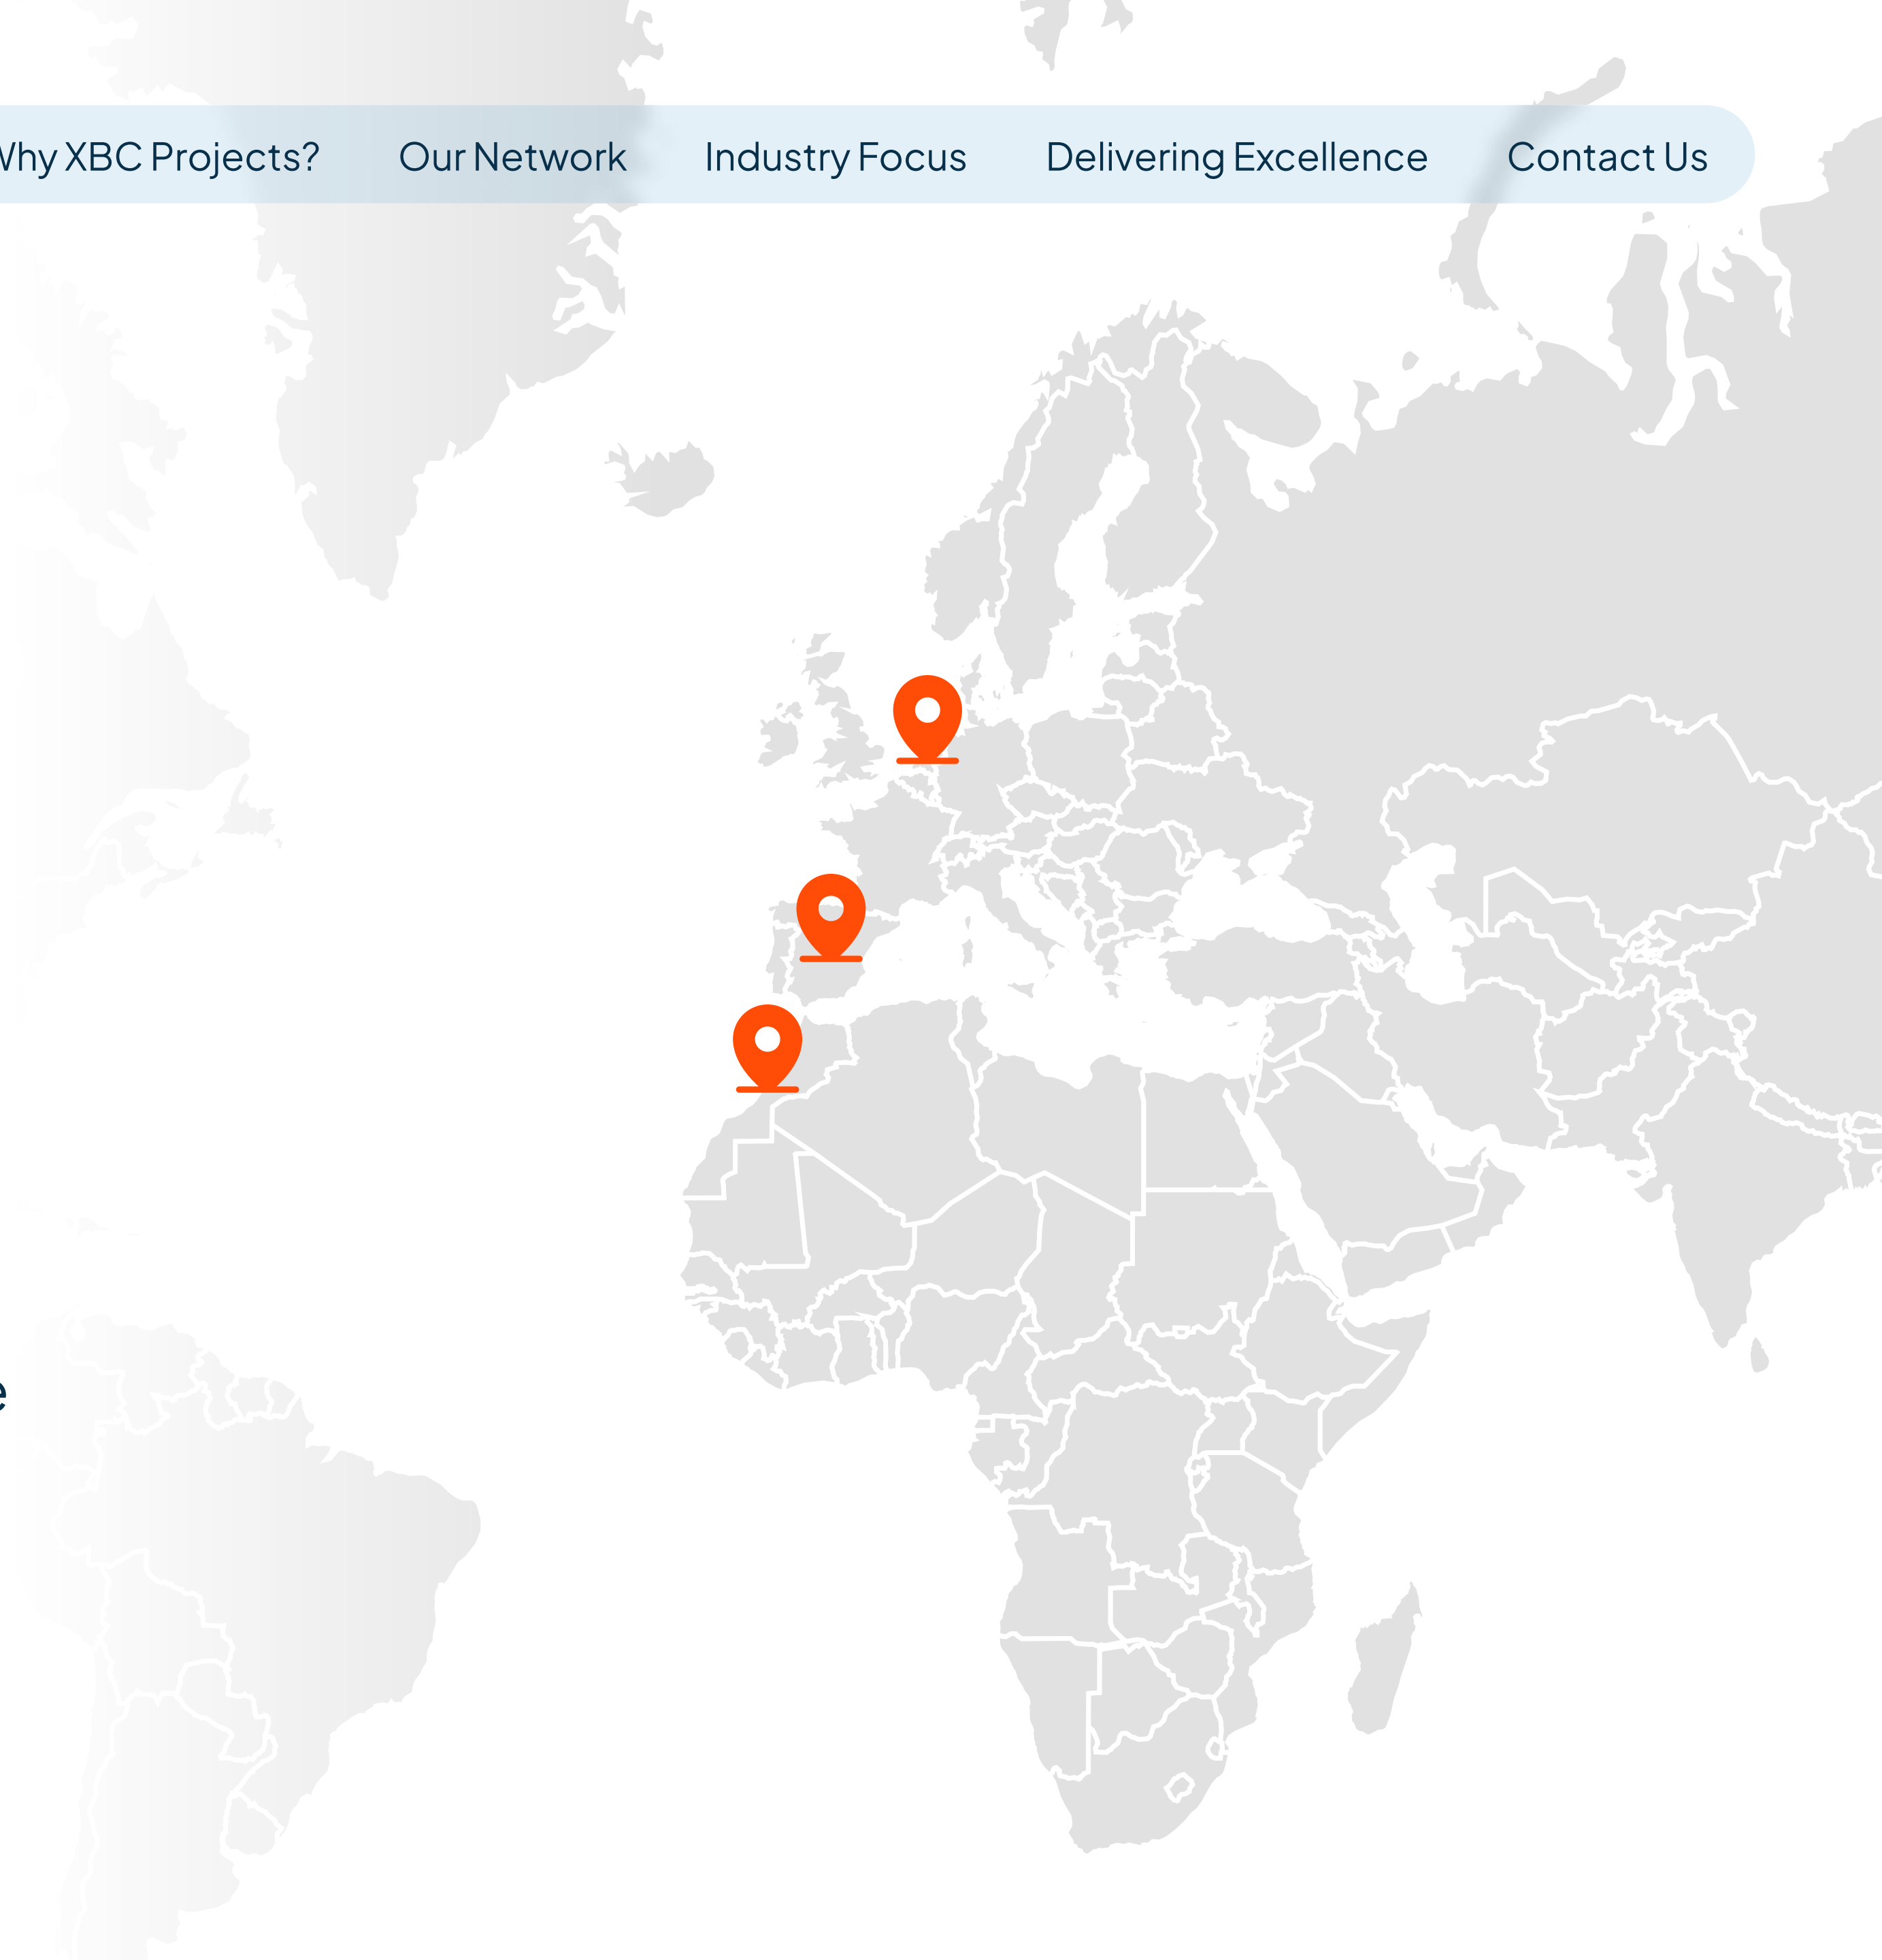

Heavy Lift
& OOG Specialists

End-to-End
Corridor Management

15+ years. One corridor. Deep expertise.

XBC Projects is a specialized project logistics operator connecting **Europe and Northwest Africa**. Founded in Morocco, we manage the full logistics chain for complex, oversized, and heavy-lift cargo — from chartering and transport engineering to customs clearance and last-mile delivery.

With offices in Rotterdam, Madrid, and Casablanca, and operational presence at Algeciras, Tanger Med, and the Guerguerat border crossing, we offer end-to-end coverage across the entire Europe–Africa corridor.

Specialized Solutions for Complex Challenges

Transport Engineering

Route surveys, load studies and technical planning handled by our in-house engineering team.

Project Freight Forwarding

Full logistics coordination for industrial and energy projects, from first mile to site delivery.

OOG & Heavy Cargo Transport

Multimodal solutions for out-of-gauge, overweight and non-standard cargo.

Heavy Lift Chartering

MPP, RoRo, breakbulk and heavy lift vessel chartering, tailored to your cargo and timeline.

Road Transport & Fleet

Own fleet of curtainsiders and flatbeds operating between Europe and Morocco.

Why XBC Projects?

The Europe–Africa corridor is where we excel.

Deep Corridor Expertise

Over a decade operating the Europe–Northwest Africa corridor — we know every port, every border, every regulation.

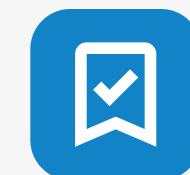

In–House Engineering Team

Route surveys, load calculations, and transport studies handled internally — precision and speed on every project.

Founded in Morocco

We understand the market from the inside — the culture, the administration, and the ground realities that matter.

Compliance & Safety First

Every operation is managed in strict compliance with local and international regulations, with safety embedded at every stage.

Full Operational Backbone

Own fleet, in-house customs teams, and permanent presence at key crossing points across the corridor.

One Partner, Full Accountability

From origin to final site — one team manages the entire chain, across all modes and all borders.

LOGISTICS NETWORK

-  Strategic Offices
-  Operational Presence

Our Network

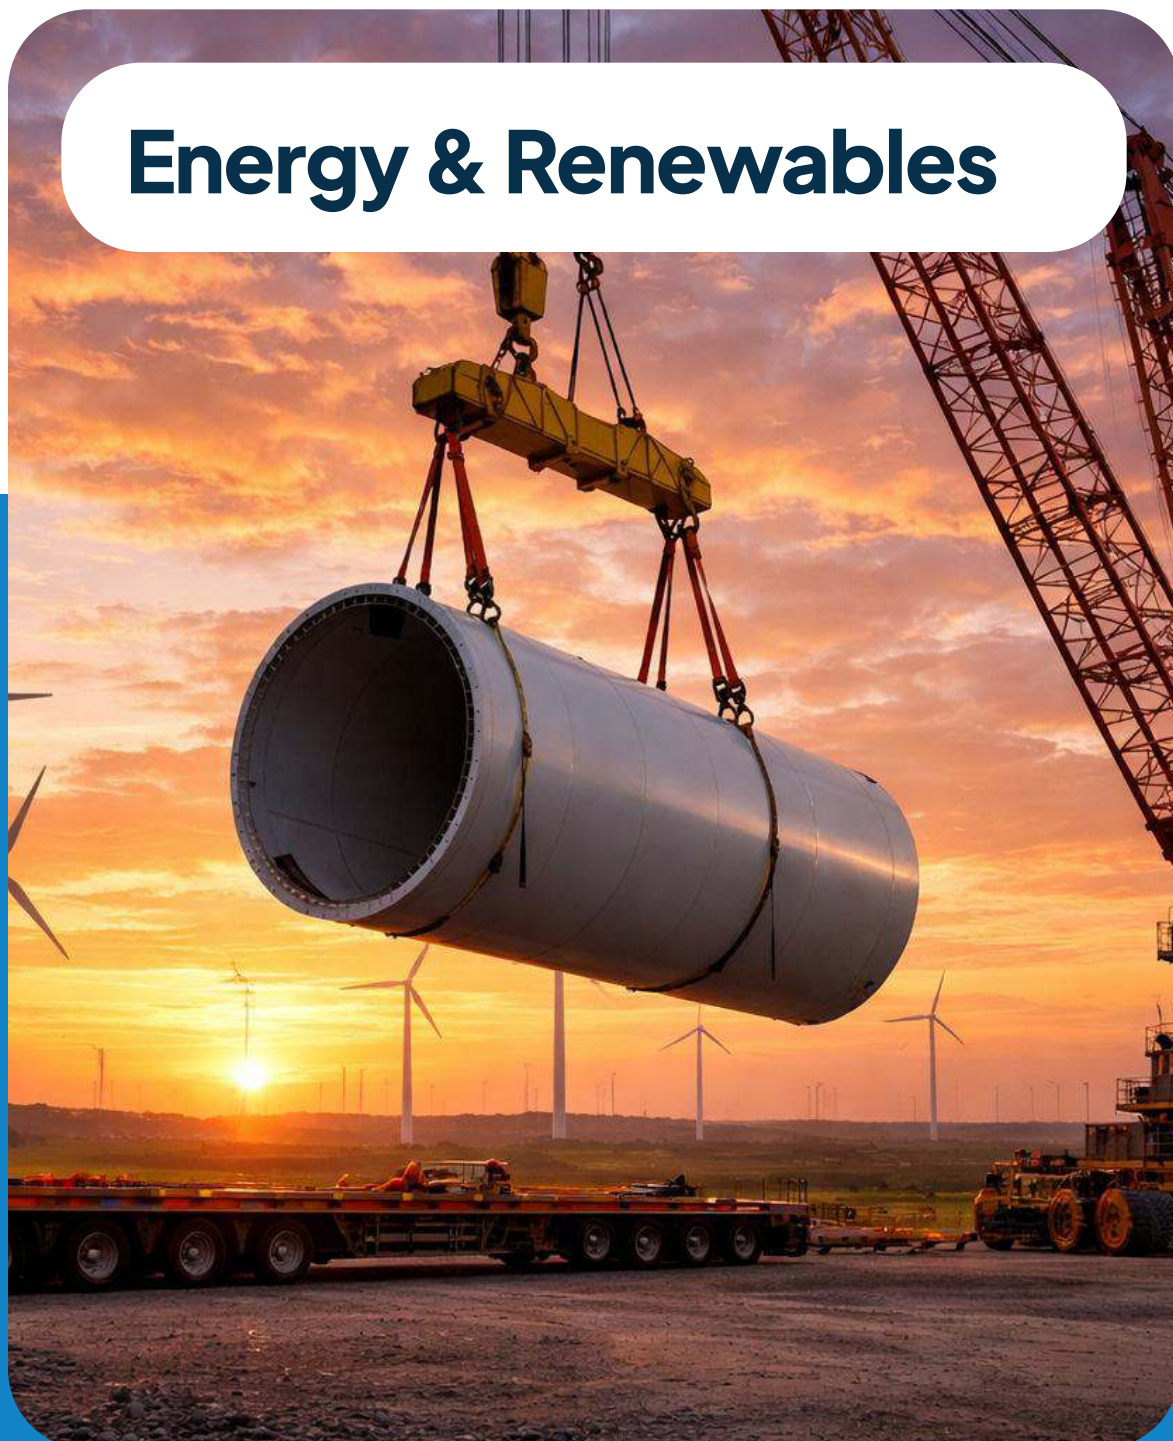

Global reach. Corridor mastery.
We operate wherever complex
cargo needs to move.

Industries We Serve

We provide specialized logistics support for the most demanding sectors:

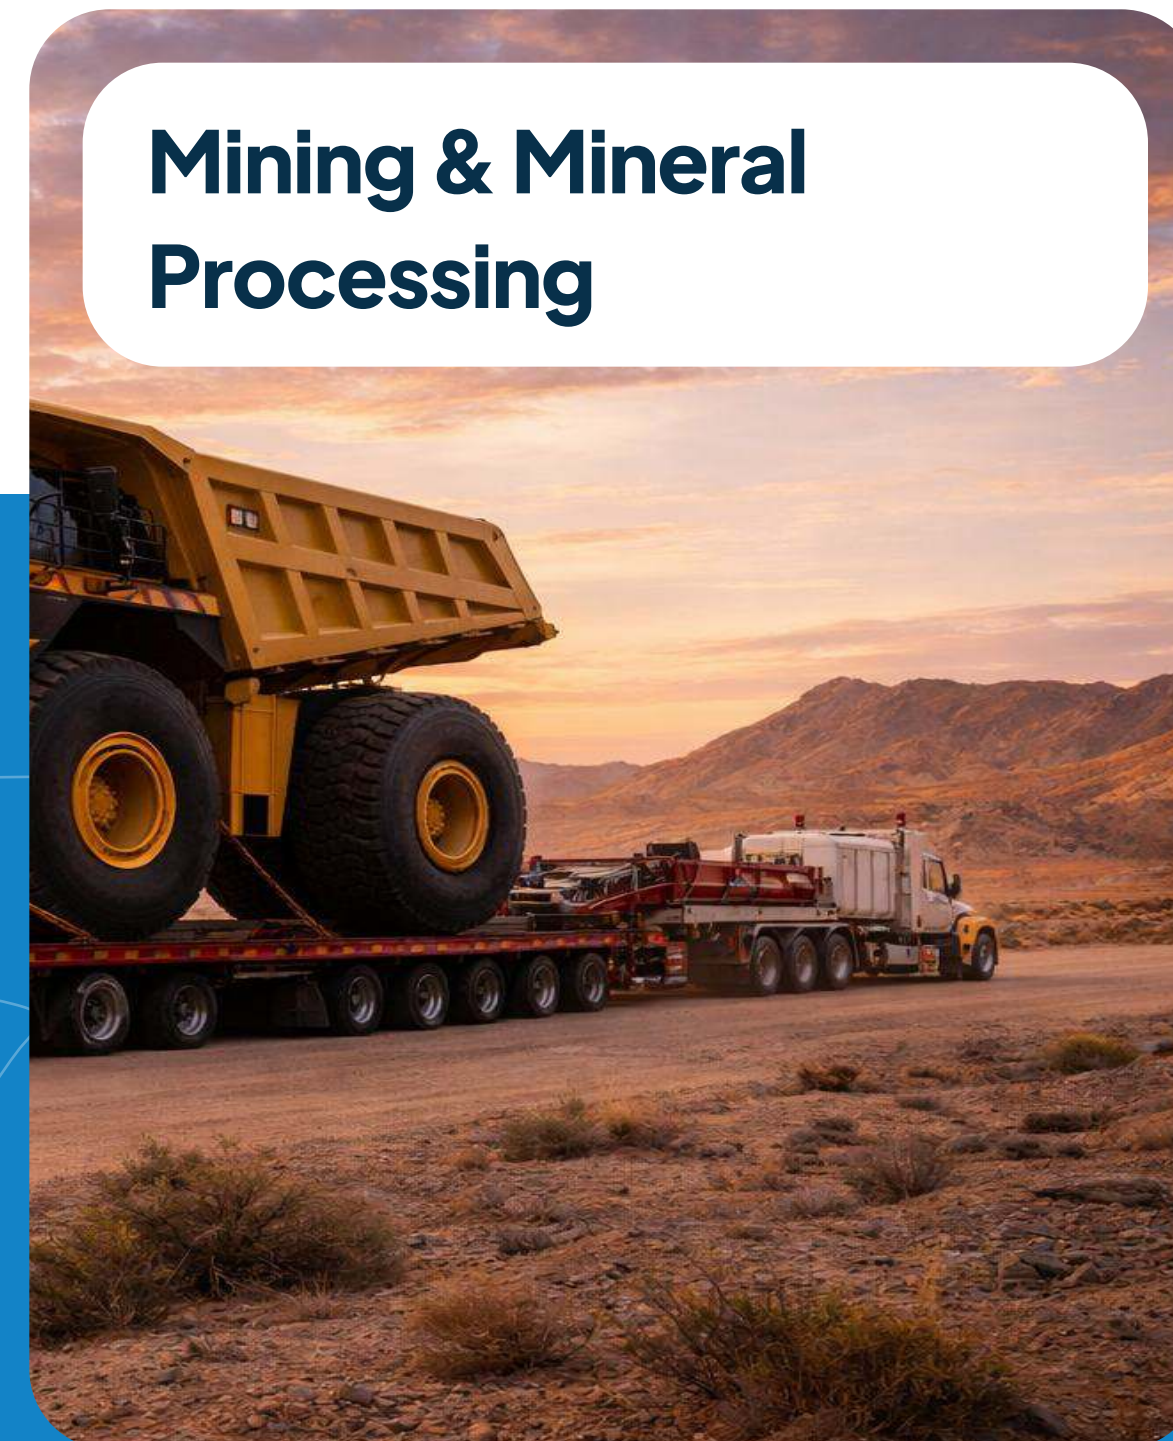

Energy & Renewables

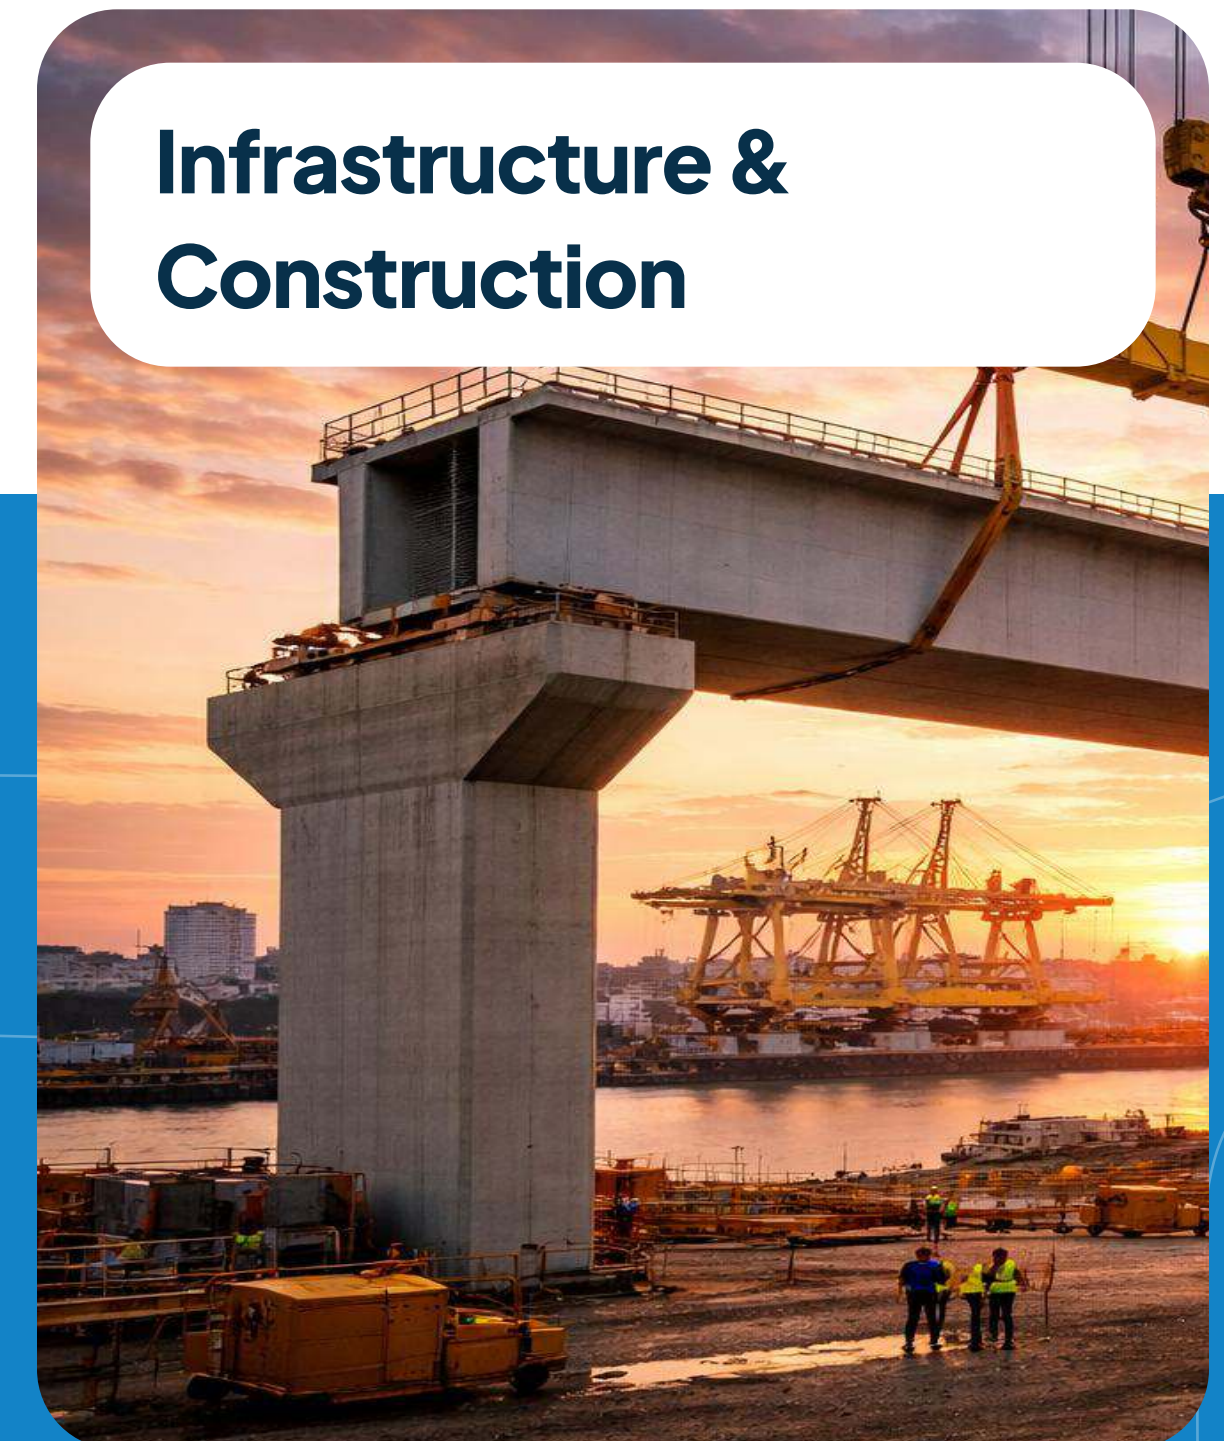

Oil & Gas

Mining & Mineral Processing

Infrastructure & Construction

Delivering Excellence in the Field

ONCF

Transport of Rail-route engine for ONCF Morocco

Intrame

Transport of 30m x 4,5 m x 4,4 m engine from Valladolid to Casablanca on a 100 % road transport

Siemens Gamesa

Transport of wind turbines components for Siemens Gamesa in a wind farm project in South of Morocco

General Electric

Handling and transport of 6 trafos with an weight of 160 T each from port of Layoune to Wind farm jobsite

Delivering Excellence in the Field

CMS Morocco

Transport of 4 trafos of 100 T each from port of Essaouira to a Wind farm jobsite

GH Crane

Transport of 30 m lenght crane component from Bilbao region to Dakhla in south of Morocco , more than 3000 km on a 100% road transport solution
